COMPLETE TELECOMS CONTROL

MOBILE AND FIXED LINE  
**TELECOMS EXPENSE**

IS ONE OF THE TOP  
FIVE SPENDS IN  
BUSINESS EVERY YEAR.  
BUT WITH A MULTITUDE  
OF SOFTWARE,  
HARDWARE, SUPPLIERS,  
TARIFFS AND USERS,  
MANY BUSINESSES FIND  
IT TIME CONSUMING  
AND EXPENSIVE TO  
**KEEP TRACK OF IT ALL.**

TEM360 IS A FULLY  
MANAGED, MODULAR  
SYSTEM THAT GIVES YOU  
A REAL TIME VIEW OF  
EVERY AREA OF YOUR  
TELECOMS, ALLOWING  
YOU COMPLETE  
CONTROL OVER ONE  
OF YOUR BUSINESS'  
LARGEST SPENDS.

The simplicity of the system means that you only have to purchase the modules your business needs, allowing it to be tailored to suit your needs and your budget exactly.

TEM360 is a fully managed service, so it doesn't come with the normal headaches associated with ordinary software that has to be installed, integrated with your business operations, and then looked after. It's simply an easy to use, indispensable service that will bring you guaranteed net savings.

# I WANT MORE CONTROL

Among the modules available are:

## BILL VALIDATION

A key tool needed to check the accuracy of your telecoms bills and recover costs due to overcharging and inaccurate billing.

## ASSET TRACKER

This module allows you to trace and track every phone, network, piece of software, license and any other spend associated with telecoms for better efficiency and control over one of your biggest costs.

## COMPARE TARIFF

Using the system's knowledge about your average telecoms spend, this module finds the most economical tariffs for each area of your business.

## KPI

To motivate and reward employees, this element allows users to instantly see their actual achievements versus their performance targets.

## TREND

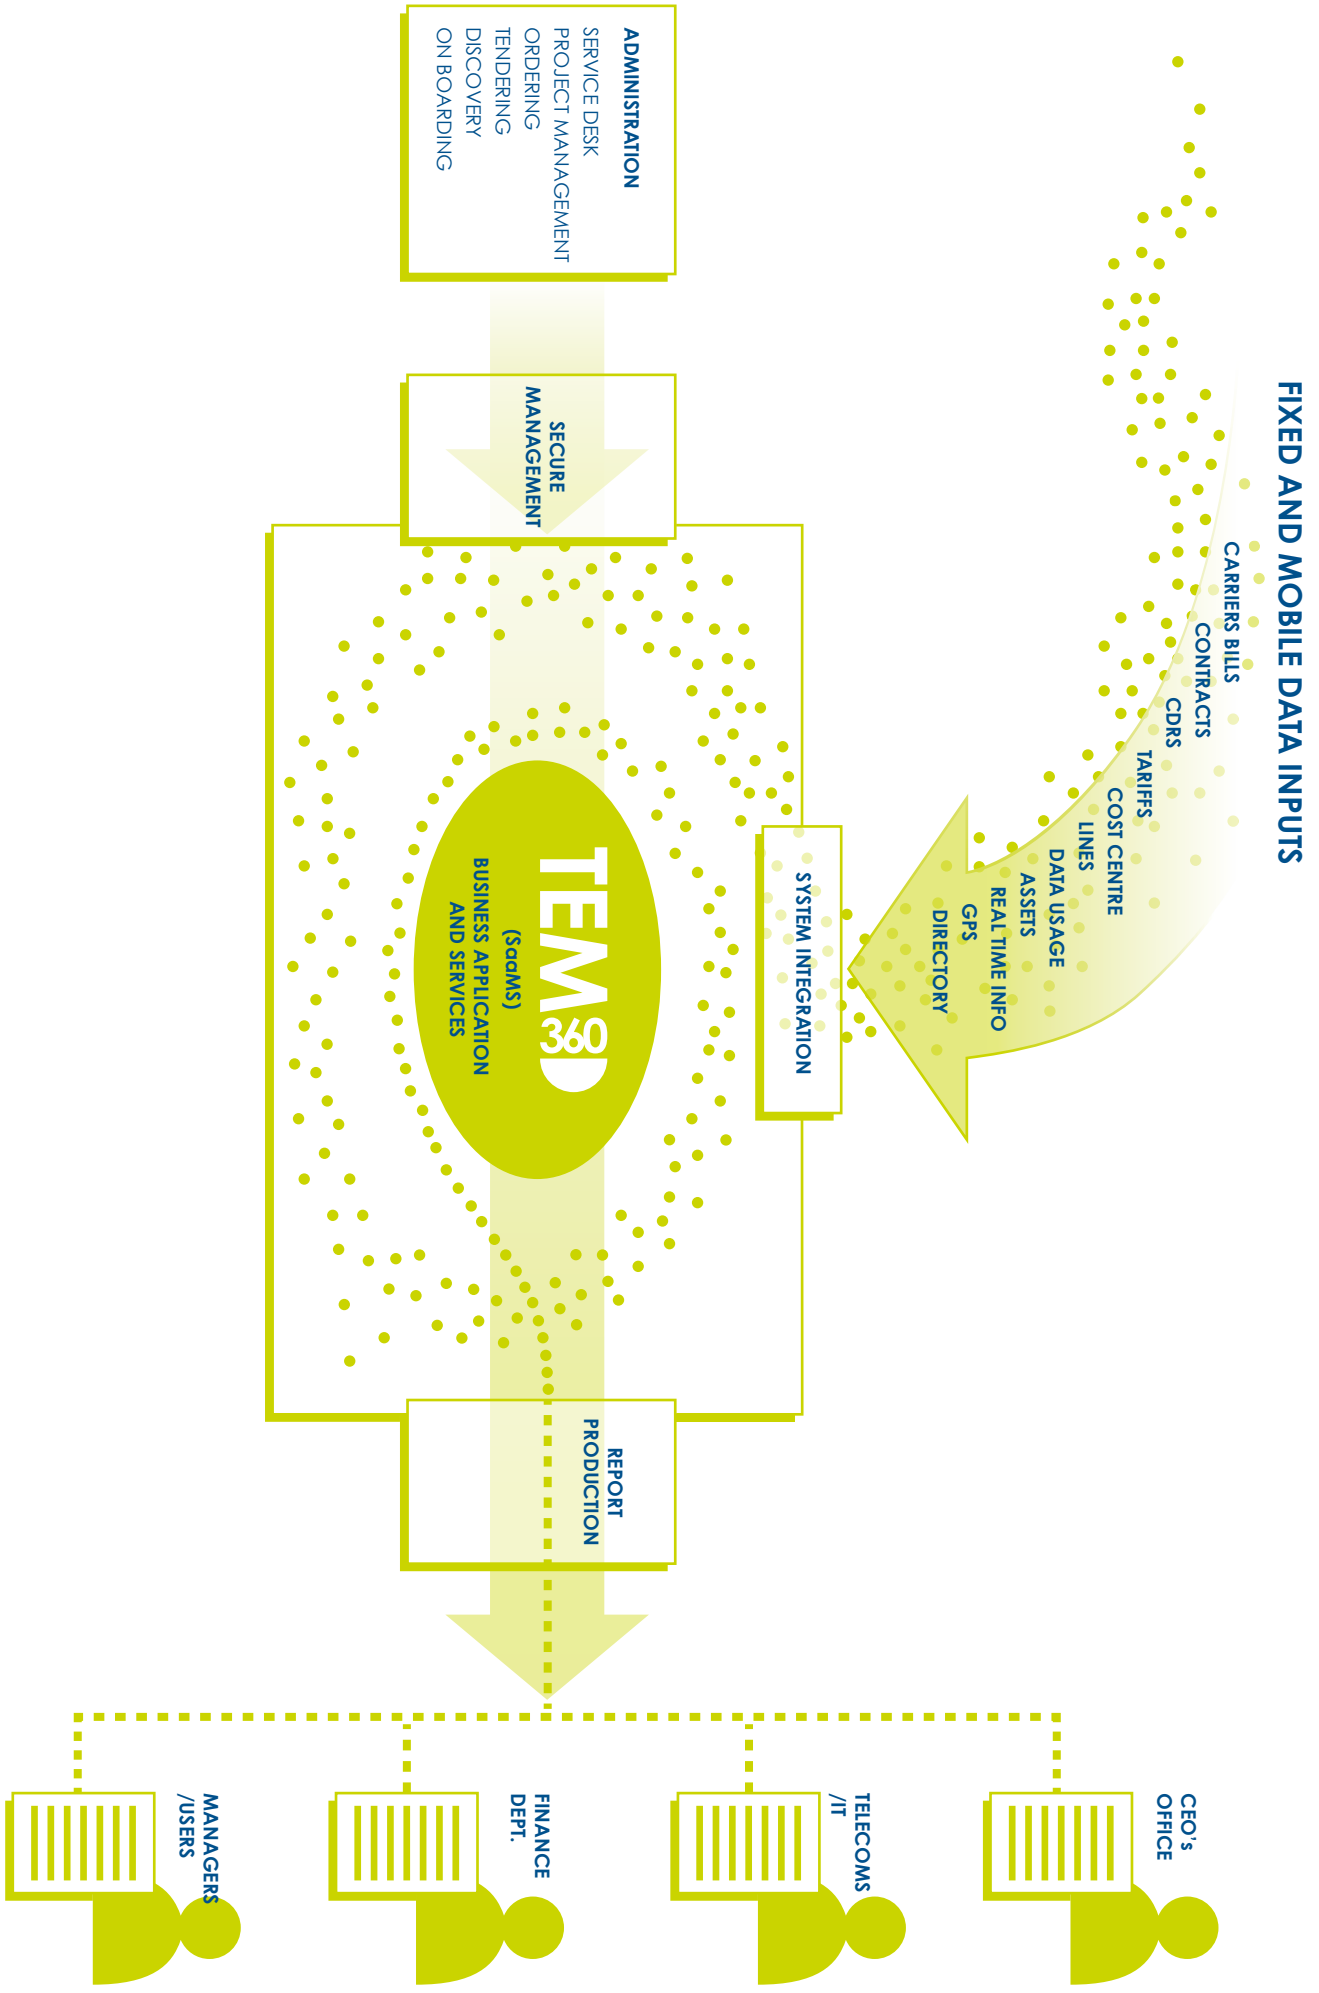

This module helps you to see the trends in your telecoms usage and permits you to more accurately predict the telecoms spend you will need to include in your forecasts in line with your business growth.

## MOBILE

Measure and manage business and personal use, inbound and outbound, giving greater control over the mobile estate. With GPS tracking of handsets and tablets, every element of the mobile phone use is monitored and managed making auditing, budgeting and recharging of personal use a cost effective reality.

**Taking into account your business objectives and budget, we can provide you with a solution that will improve efficiencies and employee performance and can even provide you with a return on investment of 7-12%.**

Our dedicated team of highly qualified, experienced, friendly people provide companies from all over the world with the guidance and tools they need to better manage their telecoms expenses.

Companies from both the private and public sectors like **Dell, AIB, Ministry of Justice, Belfast Health and Social Care Trust and the Department of Transport, Tourism & Sport** chose to work with us partly because they know they are getting the most advanced technology possible in this industry, but also because of our managed service ethos, meaning that we are there to help you achieve your goals every step of the way.
